SUMMARY

Software developer with hands-on experience in building web applications using **React.js, Next.js, JavaScript, and Node.js**. Familiar with **TypeScript, REST APIs, SQL databases, and Git**. Interested in developing reliable, responsive applications, solving technical problems, and learning from an experienced development team.

EDUCATION

Shaheed Bhagat Singh State University **2022 - 2026**
*B.Tech - Computer Software And Engineering -**7.70*** *Punjab, India*

EXPERIENCE

Ascella Infosec **Feb 2026 – Sep 2026**
Software Engineer *Remote*

- Engineered scalable backend services using **Node.js** and **Express.js**, developing robust RESTful APIs and securing endpoints with **JWT** and OAuth.
- Managed data architectures across **MongoDB**, **MySQL**, and **PostgreSQL**, handling data modeling and query optimization to enhance database performance.
- Streamlined cross-functional collaboration by integrating third-party APIs, debugging critical issues, and implementing performance tuning and version control via **Git**.

Ascella Infosec **Dec 2025 – Jan 2026**
Software Engineer Intern (Link) *Remote*

- Developed and maintained responsive web application features using **React.js, Next.js, and TypeScript**, focusing on usability and performance.
- Integrated **RESTful APIs** with backend services, implemented authentication flows, and worked with dynamic data and CRUD operations.
- Worked on database integration, debugged frontend and API issues, and tested application features while maintaining code quality through **Git-based collaboration**.

PROJECTS

AI-Powered Gym E-Commerce Platform | React.js, Node.js, Express.js, MongoDB, JWT

- Implemented secure **JWT-based authentication** with role-based access control to manage distinct user permissions across the platform.
- Integrated **Web Speech API** to enable voice-based search and navigation, improving accessibility and overall user experience.
- Optimized frontend performance using **code splitting and lazy loading**, significantly reducing initial page load time.

AI Form Builder | Next.js, React, TypeScript, Tailwind CSS, REST APIs, Clerk

- Developed an **AI-powered dynamic form generation platform** that automates form creation from natural language inputs, improving form creation efficiency by **40%**.
- Built and maintained **15+ reusable UI components**, reducing overall development time by **30%** across the platform.
- Implemented secure user authentication and session management using **Clerk**, ensuring protected access to form-building features.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), SQL, Python
Frontend: React.js, Next.js, React Hooks, Redux Toolkit, HTML5, CSS3, Tailwind CSS, Responsive UI
Backend: Node.js, Express.js, RESTful APIs, JSON, API Integration
Databases: PostgreSQL, MySQL, MongoDB, SQL Queries, Database Design, Query Optimization
Testing: Playwright Basics, Jest Basics, Functional Testing, Debugging, Bug Fixing
Tools & DevOps: Git, GitHub, Docker, CI/CD Pipelines, GitHub Actions, Application Deployment
Core Competencies: Full-Stack Development, Data Structures, Problem Solving, Performance Optimization, Code Reviews

ACADEMIC ACHIEVEMENTS

- **Solved over 200** problems across different coding Platform including **Leetcode, GeeksforGeeks, HackerRank**
